

# WELCOME TO THE WORLD OF SUSTAINABLE FABRICS

A guide for all sustainable  
products provided by  
Associates Nonwovens

Presented by  
Associates Nonwovens

# Associates Nonwovens

Associates Nonwovens is a prestigious firm that helps businesses boom with sustainable designer fabrics. We are proud manufactures and distributors of non-woven fabrics. Our products are fit for usage in finished goods and merchandise in diverse sectors including medicine, garment, packaging, agricultural and construction industry. We also make custom-made products, amplifying the product range offered. Our products go through different levels of quality checks before we actually handover the final product.

Our products have been widely regarded as best in quality by all our consumers. We provide all customization in the fabric material used. We believe non-woven fabric to be the best and the most sustainable way to approach the future. We have a 0% wastage generating unit. This industry is the soul of sustainable eco-friendly fabrics, and strives to keep it the same with our ISO: 9001 certified managerial practices.
